

# THE ORIGINAL IMAGE OF DIVINE MERCY

## A LIVE MULTI-MEDIA EVENT

The Original Image of Divine Mercy was painted in Vilnius (Lithuania) by Eugeniusz Kazimirowski under the direction of Saint Faustina Kowalska and with the patronage of Blessed Fr. Michael Sopoćko. Over the last 85 years since its completion, this priceless painting has been lost, forgotten, stolen, smuggled, abandoned, almost destroyed, and even forged. Thanks to the research of Daniel diSilva and the Original Divine Mercy Institute, the history and significance of this priceless masterpiece has finally been compiled.

Through a fascinating multi-media presentation using the latest technologies, audiences around the world are getting a new look at Saint Faustina's magnum opus. Using a 10' tall semi-transparent screen set into a massive picture frame and 7000 lumens of rear projection, the Original Image of Divine Mercy "comes to life" in 700MB at 8000 dpi. The entire stage becomes a blank canvas for historian Daniel diSilva to take the audience on a journey through time and space, with images, film, re-enactments, music, humor, and an unforgottably inspirational spoken word presentation.
